

AQEELA IJAZ

Full Stack Web Developer & Graphic Designer

Sharaqpur Sharif, Punjab, Pakistan | +92 327 0891751 | aqeelaijaz05@gmail.com | github.com/AqeelaIjaz | linkedin.com/in/aqeelaijaz

PROFILE

Motivated full stack web developer and IT student with a strong interest in Data Science and Generative AI. Builds complete PHP/MySQL systems end to end — front end, back end, and database — alongside real AI applications. Skilled in Python, HTML, CSS, problem-solving and teamwork. Seeking an internship opportunity to apply and grow technical skills in a professional environment.

EDUCATION

BS Information Technology — University of Management and Technology Oct 2024 – Present

Sharaqpur Sharif, Pakistan | CGPA: 3.52 / 4.00 | Good Standing Holder | 100% Attendance Record

Focus areas: computer use, databases and network design & administration, and ICT-related interdisciplinary studies.

SKILLS

- Languages: Python · HTML / CSS / JavaScript · SQL · C++ · PHP
- CS Fundamentals: Object-Oriented Programming, Data Structures & Algorithms (linked lists, queues, binary search)
- Databases: MySQL, relational database design (ERD / UML / relational diagrams)
- AI / ML tooling: PyTorch, timm (EfficientNet), OpenCV, Gradio, Hugging Face Spaces
- Networking: VLAN configuration, inter-VLAN routing, Cisco Packet Tracer
- Python ecosystem: Beautiful Soup, NumPy, Requests
- Modeling & docs: Draw.io / Draw.db
- Tools: Git & GitHub, version control, VS Code, XAMPP, Google Colab
- Full Stack Development: PHP + MySQL (database-connected systems), Bootstrap, jQuery, exposure to React Native
- Graphic Design: Canva
- Core strengths: critical thinking, teamwork, time management, communication

EXPERIENCE

Fresher — no completed work experience yet. Skills below are hands-on, built through coursework, personal projects, and my first internship (currently in progress).

INTERNSHIPS

Frontend Development Internship — CodeAlpha (Ongoing) Jul – Aug 2026

Graphics Design Internship — CodeAlpha (Ongoing) Jul – Aug 2026

PROJECTS

EcoGuard.AI — AI-driven pest & pollinator monitoring system May 2026

- Built an AI-driven monitoring system classifying insects into ecological roles (pest, pollinator, predator, biological control agent) from images, with sustainable, rule-based recommendations for farmers.
- Achieved 94% accuracy classifying high-risk environmental zones using a hybrid CNN + LSTM approach on multi-source satellite and IoT data.
- Reduced false-alarm rates by 30% through anomaly detection, improving response efficiency for conservation teams.
- Shipped a multilingual (5-language) Gradio web app with a real-time dashboard, deployed on Hugging Face Spaces.

github.com/AqeelaIjaz/ecoguard.ai

Hospital Patients Flow & Billing System

2026

- Designed a hospital management database (PHP + MySQL) tracking patient admissions, department transfers, and automated billing — reducing billing disputes from 22% to near zero.

VLAN-Based Network Design for Inter-Departmental Communication 2026

- Designed and simulated a segmented network in Cisco Packet Tracer using VLANs, trunk ports, and router-on-a-stick inter-VLAN routing across IT, CS and AI departments.

TrendTown — E-Commerce Website 2026

- Built a PHP + MySQL e-commerce storefront spanning clothing, jewelry, and electronics categories.

Student Management System 2026

- A PHP + MySQL CRUD system for managing student records with authentication and an admin dashboard.

Event Management System 2026

- A PHP + MySQL system for event categories, ticketing, registrations, and separate admin/user dashboards.

Ticket Reservation System (C++) Jan 2025

- Implemented seat management with linked lists, waiting lists with queues, and fast booking lookups with binary search.

Simple Web Calculator Jun 2026

- A clean, responsive calculator built with HTML, CSS and JavaScript supporting all basic operations with instant results.

CERTIFICATIONS

- Generative AI Application Developer Certificate (Top Performer) — UETIANS Lahore Endowment Foundation, in collaboration with NCEAC-HEC, PakAngels, iCodeGuru & Aspire Pakistan · Dec 2025
- Generative AI Certificate, Cohort 3 (hackathon project: EcoGuard.AI) — Aspire Pakistan · Apr 2026
- Generative AI Certificate, Cohort 1 — Aspire Pakistan · Dec 2025
- Certificate of Participation, "Accelerating Learning Skills: Boost Your GPA" — UMT Office of Participant Success · Jan 2026
